Re: Series 10 Liquor License – New License – Maverik (4190 E Butler)

This would be a new location for Maverik Inc who is already licensed with us for two other locations. Maverik is in good standing with the City for tax remittance and filing of tax returns for their current locations. The new location is not built yet therefore would not start operating for some time. Based on Maverik's history with the City, I do not anticipate a problem with their compliance to the sales tax and licensing requirements for the new location.
