It was great speaking with you today and by this email I am submitting my formal objection to Resolution No. 2014-03 for the following reasons: failure to hold open meetings, failure to give notice if any meetings were held, failure to include all owners and operators of businesses within the proposed improvement district, creating a tax upon a tax upon a tax upon a tax, failure to define an exact plan, failure to set exact goals, failure to abide by previous improvement goals.

Respectfully,

Peter Barnett
